Tips for Writing Successful Nominations

## Quick Tips for Writing Successful Nominations

### Before you start

- 🏆 The Young Alumni Award recognizes young alumni under 40 years of age that have demonstrated outstanding professional achievement, or through outstanding leadership or service have significantly enhanced or improved the lives of others.
- 📌 Consider: Two letters of reference are required, including one from current or past U of I staff. Please don't use the letters to state what should be, or is already, in the application. The best letters simply give a brief personal story or endorsement of the nominee's excellence. Please provide a copy of the nominee's resume.
- 📌 Consider: The nominee must be under the age of 40 on January 1 of the application year.
- 🕒 Don't be concerned with lengthy narrative, save time by simply including the facts.
- 🕒 Remember the candidate must be a graduate of the College of Agricultural, Consumer and Environmental Sciences (ACES) or a predecessor college receiving a bachelors, masters, and/or doctorate degree(s).
- 🎯 Your target: The nominee will be considered among a pool of highly-accomplished individuals. Your application needs to clearly and completely communicate their excellence and impact.

## Biographical Sketch

- 🎯 Your target: Provide a brief summary (1-2 paragraphs) of the nominee's accomplishments in professionalism/education, service to others and community. If the nominee is selected this will be used for the introduction.
- 💡 Consider: Be very concise as this is a high level summary. There will be other parts of the application to provide more specific details for consideration of the nominee's qualifications. This section is not used for scoring purposes.
- 🚫 Don't be lengthy, limited the summary to one to two paragraphs.

## Narrative of Endorsement

- 🎯 Your target: Use the narrative to answer the question of why the alumni should be recognized. This section serves as a summary of why you personally believe this candidate has demonstrated outstanding accomplishments in professionalism, education, service to the University and College of ACES, and community.
- 💡 Consider: The several components to the nominee's accomplishments and contributions. Assist the reader in understanding the impact the nominee has had in your own words.
- 🚫 Don't add additional pages. This is limited to one page so provide the most impactful and specific examples.

### Growth in career path

- ③ Use either a narrative or bullets to succinctly illustrate how the applicant has advanced in their career. This can be within a single organization or across different employers, but show how they clearly progressed. Sometimes this growth can be demonstrated by titles like intern to CEO. Other times this can be done more effectively by illustrating the increasing levels of impact.
- Include values: To assist with understanding the scope of the candidate's growth, please provide size of budget managed, territory covered, sales achieved, number of persons managed, number of books/chapters/articles authored, etc. You should include honors and special recognitions when possible.
- ⊖ Don't limit the growth to only titles. Give supporting descriptions to enhance the reader's understanding of their growth.
